Thanks for purchasing a phone from us

OK

3. Display 10 student records in table and each row should contain a delete button. If you click on a button to delete a record, entire row should be deleted.

Before delete

Index	Name	Class	
0	Jhone	10	Delete
1	Doe	9	Delete
2	Mark	10	Delete
3	James	8	Delete

After click on delete button on "Mark " row

Index	Name	Class	
0	Jhone	10	Delete
1	Doe	9	Delete
2	James	8	Delete

4. Display an image in browser. Change the picture on mouseover and set the first picture on mouseout.

5. Show a counter in browser. Counter should increase on click on increase button and decrease on click on decrease button. And show updated counter value in browser.
